Virtual Afro Multi-Activity Spring Camp 2022

The past three years have been trying times for many children, with unexpected breaks and several changes in the educational format. This transition has not always been an easy one for children who were accustomed to meeting and playing with each other in person. We at the Africa Center Hong Kong are looking to bring back a bit of the **adventure and joy** of a conducive learning environment through our **Virtual Afro Multi-Activity Spring Camp**.

This camp is specifically designed to rejuvenate the spirits of children in **fun and exciting activities**. Through these activities children will be able to rediscover the joy of learning even when it is done over a screen.

Our camp focuses on three main categories*. The first being **Arts and Crafts** which cultivate creativity in children. The second is a series of **Virtual Travel Workshops** in which participants will get to explore Africa and nurture a curiosity in the world as global citizens. Lastly, through **Cooking and Baking Workshops** participants will be able to test their practical skills in the kitchen and interact with their homes in a new and exciting manner whilst cooking tasty dishes and learning about different African cuisines!

Date: 18 Mar - 15 Apr, 2022

Time: 2 timeslots/ day (11am - 12pm, 4pm - 5pm)

Age: 3 years - 15 years old

Venue: Zoom

*Categories

1. Arts & Crafts - Every Tuesday

These workshops cultivate creativity in children whilst at the same time presenting them with novel material from the African continent. These workshops will go over and beyond to engage children whether it be through painting, braiding or crafts!

2. Virtual Travel Workshops - Every Wednesday

Through the several virtual travel workshops, children will get the chance to explore the world through their screens! In these virtual travel workshops children will be introduced to different African countries using a lens that focuses on the reality of children similar in age to them. This will for example be coming of age stories, school setting explorations or playground tours. Just like a real travel experience all participants will receive a souvenir from the country via post!

3. Cooking & Baking - Every Friday

The Virtual Cooking & Baking workshop investigates cultural groups with an emphasis on the foods they eat both in Africa and African diaspora. In this hands-on African cooking/baking workshop, our different chefs will immerse you into this fusion of African traditional cooking techniques, story-telling and fun. Learning how to cook is one of the most important skills a person can have and in this workshop everyone will have a hand in cooking delicious African cuisine.
